OBJECTIVES

To join a dynamic team in Software Development and/or Technology that allows me to leverage my skills, education, and creativity, aiming to contribute to impactful projects while continuously enhancing my technical expertise and professional growth within the industry.

EDUCATION

- **ESSTHS University**
  Bachelor's degree in Electronics and Automation Engineering *Jun. 2016*

PROFESSIONAL EXPERIENCE

- **Upwork Global LLC**
  Software Developer *Mar 2021 - Oct 2025*
  - Optimized web applications and trading platform software for performance and scalability, resulting in improved response times and increased user engagement.
  - Developed custom trading algorithms and automated trading systems to improve trading performance and reduce risk.
  - Worked with traders and compliance teams to ensure software solutions comply with regulatory requirements and industry best practices.
  - Collaborated with third-party vendors to integrate their solutions into web applications and trading platforms, ensuring seamless user experience and functionality.

- **Freelancer Technology**
  Software Developer *Jul 2016 - Feb 2021*
  - Developed and maintained web applications using HTML, CSS, JavaScript, React, NextJs, Node.js, Express, MongoDB, MySQL, PHP, Python, Docker, AWS, google cloud, firebase, and more to meet or exceed user expectations.
  - Worked on the development of trading platform software that incorporates algorithmic trading, data analysis, and risk management features using a C++ extension.
  - Designed and implemented RESTful APIs to integrate third-party services into trading platforms and web applications.
  - Collaborated with cross-functional teams, including designers, project managers, and traders to ensure the delivery of high-quality and user-friendly software products.
  - Contributed to the development of web development and trading platform software best practices and helped mentor junior developers.
  - Stayed up-to-date with the latest trends and technologies in web development and trading platform software development to ensure the use of the most efficient and effective solutions.

PROGRAMMING SKILLS

- **Languages:**
  Javascript, TypeScript, Python, C++, PHP, Bash
  Swift, Dart, MQL, Pinescript
  SQL, NoSQL
  HTML, Jinja, CSS, SCSS, SASS

- **Technologies:**
  NodeJs, NextJs, ReactJs, ReduxJs, VueJs, chartJs, socket.io
  Django, Flask, FastAPI, Laravel
  LangGraph, LangChain
  Tailwindcss, Material-UI, Bootstrap, Bulma
  MySQL, Postgress, MongoDB, DynamoDB, Firebase, Supabase
  RESTful API, GraphQL
  Linux, Docker, CI/CD, Git
  AWS, Google Cloud, Firebase, Vercel, Netlify, Heroku, Linode
